QUESTION

Find the direction and normal vectors of the line $x + y = 2$.

SOLUTION

Given Line	$x + y = 2$
To Find	Direction and normal vectors of the line

TABLE 0: Variables Used

$$y = -x + 2 \tag{0.1}$$

$$\leftrightarrow y = mx + c \tag{0.2}$$

$$A = \begin{pmatrix} 1 \\ m \end{pmatrix} \tag{0.3}$$

$$= \begin{pmatrix} 1 \\ -1 \end{pmatrix} \tag{0.4}$$

$$B = \begin{pmatrix} -m \\ 1 \end{pmatrix} \tag{0.5}$$

$$= \begin{pmatrix} 1 \\ 1 \end{pmatrix} \tag{0.6}$$

$$\tag{0.7}$$

where A and B denote the Direction and Normal vectors of the line respectively.

$$A = \begin{pmatrix} 1 \\ -1 \end{pmatrix}$$

$$B = \begin{pmatrix} 1 \\ 1 \end{pmatrix}$$
